[maki-nebu](#)

MAKDA NEBYU

Multitalented software engineering student and professional model seeking opportunities to apply creative, technical, and communication skills. Passionate about empowering people through innovation, design, and digital solutions. Eager to grow in both the tech and fashion industries while contributing meaningfully to impactful projects.

EXPERIENCE

Model | Freelance

Collaborated with local designers and photographers for fashion shows and brand campaigns. Built a strong social media presence to promote sustainable fashion and professional lifestyle.

Software Developer

Contributed to the development of a clinic management system using PHP and MySQL. Worked in a team to design intuitive user interfaces and backend functionality. Gained experience in debugging, user testing, and working with real client requirements.
